

HEALTHY HABITS, SAFER TOMORROW

Hand washing steps

1. Wet your hands with clean, running water

2. Apply soap and rub your hands together for at least 20 seconds

3. Rinse your hands until all the soap is gone

4. Turn off the faucet with a paper towel or your elbow

5. Dry your hands with a clean towel

Best Practices

- Correct detergent usage
- Daily / weekly cleaning routines for home, workspace or public areas
- Use of sanitizers when soap isn't available
- Eco-friendly hygiene choices

Lessons Learned

- The importance of regular handwashing with proper detergent or soap use
- Increased awareness of sanitizers, surface disinfectants and cleaning habits
- How good hygiene helps prevent disease spread and protects public health

STAY CLEAN, STAY HEALTHY.
